This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

NOTE.—The District of Columbia was established under the authority and direction of acts of Congress approved July 16, 1790, and March 3, 1791, which were passed to give effect to a clause in the eighth section of the first article of the Constitution of the United States, giving Congress the power—

"To exercise exclusive legislation in all cases whatsoever over such District (not exceeding ten miles square) as may, by cession of particular States and the acceptance of Congress, become the seat of the Government of the United States, and to exercise like authority over all places purchased, by the consent of the legislature of the State in which the same shall be, for the erection of forts, magazines, arsenals, dockyards, and other needful buildings."

The local government of the District of Columbia is a municipal corporation having jurisdiction over the territory which "was ceded by the State of Maryland to the Congress of the United States for the permanent seat of the Government of the United States."

This government is administered by a board of three commissioners having in general equal powers and duties.

Two of these commissioners, who must have been actual residents of the District for three years next before their appointment and have during that period claimed residence nowhere else, are appointed from civil life by the President of the United States and confirmed by the Senate of the United States for a term of three years each and until their successors are appointed and qualified.

The other commissioner is detailed from time to time by the President of the United States from the Engineer Corps of the United States Army, and shall not be required to perform any other duty. This commissioner shall be selected from among the captains or officers of higher grade having served at least 15 years in the Corps of Engineers of the Army of the United States.

Three officers of the same corps, junior to said commissioner, may be detailed to assist him by the President of the United States.

The senior officer of the Corps of Engineers of the Army who shall for the time being be detailed to act as assistant (and in case of his absence from the District or disability, the junior officer so detailed) shall, in the event of the absence from the District or disability of the commissioner who shall for the time being be detailed from the Corps of Engineers, perform all the duties imposed by law upon said commissioner.

The salary of each of the commissioners is $5,000 per annum.

One of the said commissioners shall be chosen president of the Board of Commissioners at their first meeting, and annually and whenever a vacancy shall occur thereafter.

The commissioners are in a general way vested with jurisdiction covering all the ordinary features of municipal government.

Congress has by sundry statutes empowered the commissioners to make building regulations; plumbing regulations; to make and enforce all such reasonable and usual police regulations as they may deem necessary for the protection of lives, limbs, health, comfort, and quiet of all persons, and the protection of all property within the District, and other regulations of a municipal nature.

1 Assessor's salary is $3,500 per annum. He receives $500 additional as chairman of excise and personal tax board.

2 The law provides for a board of assistant assessors (consisting of five members at $3,000 each), and that the members thereof shall constitute the personal tax board, excise board and board for the assessment of taxes on realty (q. v.). (The law further provides for two assistant assessors at $2,000 each.)

3 The sum of $2,000 is appropriated for extra clerk hire.

4 The assessors who constitute the excise board also make up this board.

1. Teacher.....	1	600– 700	
9. Care of building.			
1. Janitor.....	1	600	

[1] The figures in this column indicate the basic salary and the maximum salary, the difference representing the longevity allowance. Class 1 ($500 to $600) extends over four years, the increase per annum being $25; class 2 ($600 to $700), the same; class 3 ($650 to $900) extends over eight years, the increase being $25 per annum; class 4 ($800 to $1,100), 10 years, the annual increase being $30; class 5 ($950 to $1,350), 10 years, the annual increase being $40; class 6A ($1,000 to $1,800), eight years, the annual increase being $100; class 6B ($1,900 to $2,200), three years, the annual increase being $100.

[2] Principals of the graded schools, in addition to their salary as teachers, receive $30 per annum as session room allowance for each and every room over which they have supervision.

[3] Session room allowance for this school.

[4] In the outlines is shown the regular or permanent teaching force. In addition thereto there are 679 substitutes. A substitute is paid only for the services rendered, which compensation is deducted from the salary of the regular teacher whose place is filled.

1. Teacher (same as Henry D. Cooke).			

[1] There is no organization of the special departments of drawing, music, and physical culture other than that of the teaching force at large, as shown here. The teaching force is not permanently located at any school or schools, but visit all the white schools of the district, under the direction of the directors, who have educational supervision of their respective departments.

[2] The special departments of domestic science, domestic art, and manual training are organized along the lines of the rest of the school system, into cooking, sewing, and manual training schools, as here indicated.

[3] All the cooking schools are shown here. Some do not have a permanent teacher. These are visited by domestic-science teachers who have their headquarters elsewhere (where they spend most of their time).

[4] Visits Brightwood and Takoma schools (third division).

[5] Visits Woodburn (third division) and Good Hope Schools (second division).

[6] Visits John Eaton and Tenley Schools.

2. Cardozo Manual Training School.[5]			

[1] There is no organization of the special departments of drawing, music, and physical culture other than that of the teaching force at large, as shown here. The teaching force is not permanently located at any school or schools, but visits all the colored schools of the District under the direction of the directors who have educational supervision of their respective departments.

[2] The special departments of domestic science, domestic art, and manual training are organized along the lines of the rest of the school system into cooking, sewing, and manual training schools, as here indicated.

[3] Visits Garfield School.

[4] Location of this school not finally determined.

[5] This school will be the headquarters of a domestic-science teacher.

1. Teacher	1	650–900	

[1] The teachers of this group visit the third and fourth grades of all the colored graded schools under the direction of the assistant director; to these grades the elementary work in sewing is taught. In addition, dressmaking is taught to the sixth grade pupils who receive instruction at the dressmaking shops. To these shops some of the teaching force is detailed.

[2] The assistant supervisor of manual training in colored schools is immediately responsible to and under the direction of the supervisor of manual training.

[3] Center for Sumner, Wilson, Montgomery, Garrison, and Miner Schools. The teacher whose headquarters is here visits Hillsdale School (pupils from Birney and Garfield).
